### Issues

1. Did the audited charges exceed \$40,000.00?
2. Did the admission in dispute involve unusually extensive services?
3. Did the admission in dispute involve unusually costly services?
4. Is the requestor entitled to additional reimbursement?
5. Is the respondent entitled to an order or reimbursement or refund?

### Findings

This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 Texas Administrative Code §134.401, titled *Acute Care Inpatient Hospital Fee Guideline*, effective August 1, 1997, 22 Texas Register 6264. The Third Court of Appeals' November 13, 2008 opinion in *Texas Mutual Insurance Company v. Vista Community Medical Center, LLP*, 275 South Western Reporter Third 538, 550 (Texas Appeals – Austin 2008, petition denied) addressed a challenge to the interpretation of 28 Texas Administrative Code §134.401. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved unusually costly and unusually extensive services." Both the requestor and respondent in this case were notified via form letter that the mandate for the decision cited above was issued on January 19, 2011. Each was given the opportunity to supplement their original MDR submission, position or response as applicable. The documentation filed by the requestor and respondent to date will be considered in determining whether the admission in dispute is eligible for reimbursement under the stop-loss method of payment. Consistent with the Third Court of Appeals' November 13, 2008 opinion, the division will address whether the total audited charges **in this case** exceed \$40,000; whether the admission and disputed services **in this case** are unusually extensive; and whether the admission and disputed services **in this case** are unusually costly. 28 Texas Administrative Code §134.401(c)(2)(C) states, in pertinent part, that "Independent reimbursement is allowed on a case-by-case basis if the particular case exceeds the stop-loss threshold as described in paragraph (6) of this subsection..." 28 Texas Administrative Code §134.401(c)(6) puts forth the requirements to meet the three factors that will be discussed.

1. 28 Texas Administrative Code §134.401(c)(6)(A)(i) states "...to be eligible for stop-loss payment the total audited charges for a hospital admission must exceed \$40,000, the minimum stop-loss threshold."

Furthermore, (A) (v) of that same section states "...Audited charges are those charges which remain after a bill review by the insurance carrier has been performed..." Review of the explanation of benefits issued by the carrier finds that the carrier did not deduct any charges in accordance with §134.401(c)(6)(A)(v); therefore the audited charges equal \$100,993.65. The division concludes that the total audited charges exceed \$40,000.

2. The requestor in its position statement asserts that "This claim in the amount of \$100,993.65 is an inpatient surgical claim in which charges exceed \$40,000, the stoploss threshold amount, however payment is not based on this methodology and we request you to review this for Medical Dispute Resolution as a Fee Dispute". As noted above, the Third Court of Appeals in its November 13, 2008 rendered judgment to the contrary. The Court concluded that "to be eligible for reimbursement under the Stop-Loss Exception, a hospital must demonstrate that the total audited charges exceed \$40,000 and that an admission involved...unusually extensive services." The requestor failed to discuss or demonstrate that the particulars of the admission in dispute constitute unusually extensive services; therefore, the division finds that the requestor did not meet 28 TAC §134.401(c)(6).
3. In regards to whether the services were unusually costly, the requestor presupposes that because the bill exceeds \$40,000, the stop loss method of payment should apply. The third Court of Appeals' November 13, 2008 opinion concluded that in order to be eligible for reimbursement under the stop-loss exception, a hospital must **demonstrate** that an admission involved unusually costly services thereby affirming 28 Texas Administrative Code §134.401(c)(6) which states that "Stop-loss is an independent reimbursement methodology established to ensure fair and reasonable compensation to the hospital for unusually costly services rendered during treatment to an injured worker." The requestor failed to discuss or demonstrate that the particulars of the admission in dispute constitute unusually costly services; therefore, the division finds that the requestor failed to meet 28 TAC §134.401(c)(6).
4. For the reasons stated above the services in dispute are not eligible for the stop-loss method of reimbursement. Consequently, reimbursement shall be calculated pursuant to 28 Texas Administrative Code §134.401(c)(1) titled *Standard Per Diem Amount* and §134.401(c)(4) titled *Additional Reimbursements*. The division notes that additional reimbursements under §134.401(c)(4) apply only to bills that do not reach the stop-loss threshold described in subsection (c)(6) of this section.
  - Division rule at 28 Texas Administrative Code §134.401(c)(3)(ii) states, in pertinent part, that "The applicable Workers' Compensation Standard Per Diem Amount (SPDA) is multiplied by the length of stay (LOS) for admission..." Review of the submitted documentation finds that the length of stay for this admission was two surgical days and two ICU/CCU; therefore the standard per diem amounts of \$1,118.00 and \$1,560.00 apply respectively. The per diem rates multiplied by the allowable days result in a total allowable amount of \$5,356.00.
  - 28 Texas Administrative Code §134.401(c)(4)(C) states "Pharmaceuticals administered during the admission and greater than \$250 charged per dose shall be reimbursed at cost to the hospital plus 10%. Dose is the amount of a drug or other substance to be administered at one time." A review of the submitted itemized statement finds that the requestor billed two units of Thrombin 20000U at \$1,040.00/unit, for a total charge of \$1,040.50. The requestor did not submit documentation to support what the cost to the hospital was for Thrombin 20000U. For that reason, reimbursement for these items cannot be recommended.
  - Review of the medical documentation provided finds that although the requestor billed items under revenue code 278, no invoices were found to support the cost of the implantables billed. For that reason, no additional reimbursement is recommended
5. In its response to the request for medical fee dispute resolution, the insurance carrier and respondent in this dispute requested "This is a medical fee dispute arising from an inpatient hospital surgical admission, dates of service 6/9/04 through 6/13/04. Requestor billed a total of \$100,993.65. The Requestor asserts it is entitled to reimbursement in the amount of \$75,723.30, which is 75% of the total charges. Requestor has not shown entitlement to this alternative, exceptional method of calculating reimbursement and has not otherwise properly calculated the audited charges ... Having already reimbursed Requestor \$6653.85, the Carrier has reimbursed Requestor an amount greater than or equal to the amount that would be calculated in accordance with the above – described TWCC Rules and SOAH Decisions. Carrier requests an **Order of Reimbursement** for any payment previously made over the amount calculated under the methods described in the above referenced SOAH decisions." Former 28 Texas Administrative Code §133.304(p), 17 Texas Register 1105, effective February 20, 1992, provided, in pertinent part, that "An insurance carrier may request medical dispute resolution in accordance with §133.305 if... the insurance carrier has requested a refund under this section, and the health care provider: (1) failed to make payment by the 60th day after the date the

insurance carrier sent the request for refund..." Former 28 Texas Administrative Code §133.305(a)(2)(C), 27 Texas Register 12282, effective January 1, 2003, provided that "a carrier dispute of a health care provider reduction or denial of the carrier request for refund of payment for health care previously paid by the carrier (refund request dispute)" can be a medical fee dispute. Former 28 Texas Administrative Code §133.307(b)(3), 27 Texas Register 12282, effective January 1, 2003, specified that "The carrier... in a dispute involving a carrier's refund request" may be a requestor in a medical fee dispute. Section 133.307(e) required that "...carrier requests for medical dispute resolution shall be made in the form, format, and manner prescribed by the commission." Section 133.307(e)(2)(B) required that the request shall include "a copy of each... response to the refund request relevant to the fee dispute..." The division finds that the insurance carrier's position statement in response to the health care provider's request for medical fee dispute resolution does not constitute a request for refund request dispute resolution in the form and manner required by former applicable version of 28 Texas Administrative Code §133.307. Furthermore, no documentation was found to support that the insurance carrier ever presented a refund request to the health care provider to support its burden of proof for a specific refund amount in accordance with §133.304(p). The division concludes that the insurance carrier has not met the requirements of §133.304(p) or §133.307(e). For these reasons, the respondent's request for an order of reimbursement is not proper, and is not supported. An order of reimbursement for the respondent is therefore not recommended.

The division concludes that the total allowable for this admission is \$5,356.00. The respondent issued payment in the amount of \$6,653.45. Based upon the documentation submitted, no additional reimbursement can be recommended.

**Conclusion**

The submitted documentation does not support the reimbursement amount sought by the requestor. The requestor in this case demonstrated that the audited charges exceed \$40,000, but failed to discuss and demonstrate that the disputed inpatient hospital admission involved unusually extensive, and unusually costly services. Consequently, 28 Texas Administrative Code §134.401(c)(1) titled *Standard Per Diem Amount*, and §134.401(c)(4) titled *Additional Reimbursements* are applied and result in no additional reimbursement.

**ORDER**

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
